

How to Remove a Menu From Your Kodi Box

Lets say maybe your, Wife, Girlfriend, Mother who ever doesn't like the "Mens Area" Menu on your Kodi Box. You want to keep your Kodi Box and still please them!

Here's what you do:

1. Navigate to the "SYSTEM" tab Menu
2. Choose "SKIN SETTINGS"
3. Click on the top item " Set up the aeon nox main menu"
4. Highlight the "MENS AREA" on the left
5. Then click the bullet on the top right to disable it.
6. Hit the return button until you return to the main menu.

Note: you could do this for any menu item you do not wish to use / see. "Use caution when making changes, do so at your own risk"
