

Android Box Remote Programming

The remote that came with your M8S Box can be used to turn your TV On/Off and control the TV Volume.

To program your remote to match your TV IR remote:

1. Press and hold the SET button for about 10 seconds
2. Press and hold the White Power button for about 3 seconds, it will begin to flash red slowly.
3. Press and release the button you want to program say VOL+
4. place your TV Remote facing the Box Remote and press and hold the VOL + until you see the power button on the Box remote change and change back.
5. repeat steps 3 & 4 once for the VOL- , and once for the Power
6. Press and release SET button and wait for power light to go out

Your Box Remote should now turn ON/OFF your TV using the White Power button, and control your TV Volume using the VOL- and VOL+ keys directly below the TV CONTROL label the one inside the white outline.

You may have to try this several times to get it to work. It may not work will all TV's
